

Welcome

Virginia Military Advisory Council

25 March 2021

1300 – 1500

Virginia War Memorial

(& Virtual)

The Honorable Carlos L. Hopkins
Secretary of Veterans & Defense Affairs

Agenda

1300 – 1310

Welcome & Remarks

The Honorable Carlos Hopkins

1310 – 1340

Oceana Future Base Design

CAPT John Hewitt, Commanding Officer NAS Oceana

1340 – 1400

Project Search

Jennifer McDonough, Virginia Project Search Statewide Coordinator
Donna Bonnessi, Deputy Director, Employment Services and Special Programs; Virginia Department of Aging and Rehabilitative Services

1400 – 1420

Federal Update & Growing the Military in Virginia

Charlie Perham, Vice President, Matrix Design Group
John Simmons, Managing Partner, The Roosevelt Group

1420 – 1450

Commanders' Updates

1450 – 1500

Closing Remarks

The Honorable Carlos Hopkins

Opening Remarks

The Honorable Carlos L. Hopkins
Secretary of Veterans & Defense Affairs

Future Base Design

CAPT John Hewitt, USN

Commanding Officer

NAS Oceana

NAS Oceana Future Base Design Information Brief

***Presented to the
Virginia Military Advisory Council***

***By CAPT John W. Hewitt
Commanding Officer, NAS Oceana***

March 25, 2021

Future Base Design – The Origins

- **Challenge and Background**

- **NAS Oceana is 78 years old in 2021**
- **Runway/airfield are in very good condition**
 - The challenge begins at “the hangar doors”
- **NAS Oceana requirements**
 - The installation has a legacy “outpost” character
 - **NAS Oceana = 3 Installations (NAS Oceana, Dam Neck Annex, NALF Fentress)**
 - **~ 1,000 buildings...We own too much!**
- **NAS Oceana’s legacy infrastructure has created a significant backlog of maintenance**
- **The present Facilities Sustainment, Restoration, and Modernization (FSRM) Model normalizes deferment of critical facility investment and repair**
- **Increasing conflict between mission readiness, safety, and Sailor quality-of-life**
- **Current installation funding profile will never overcome this deficit**
- **HHQ Guidance**

Draft NAS Oceana Infrastructure Memo from Carrier Strike Group Commanders

DEPARTMENT OF THE NAVY
CARRIER STRIKE GROUP TWELVE
9756 DECATUR AVENUE SUITE 300
NORFOLK VA 23511-3231

ACTION MEMO

March 5, 2021

FOR: Commander, Naval Air Forces (COMNAVAIRFOR)

INFO: Commander, Second Fleet

VIA: Commander, Naval Air Forces Atlantic

FROM: Commander, Navy Region Mid-Atlantic
Commander, Carrier Strike Group Two
Commander, Carrier Strike Group Eight
Commander, Carrier Strike Group Ten
Commander, Carrier Strike Group Twelve
Commander, Naval Air Station Oceana

SUBJECT: **Oceana Hangars and Barracks Operational Risk Mitigation and Correction**

- Higher Headquarters (HHQ) action is needed to ensure the funding delineated in the "Recommended HHQ Actions" section of TAB A is programmed, budgeted, and executed.
- The Oceana Hangars and Barracks Working Group, which includes all east coast CSG Commanders and the CNRMA commander, was stood up to draft TAB A will continue to drive completion of those mitigating and corrective actions within the control of working group stakeholders. Additional action by HHQ (and other organizations with whom HHQ can coordinate or whose actions HHQ can direct) will be needed to properly resource these actions.
- **The operational risk that results from the condition of NAS Oceana hangars and barracks is unacceptable and the CSGs, Region, and NAS Oceana command structure are committed to correcting the conditions generating this risk.** HHQ action and improved resourcing will be needed to fully implement long-term remedies.

RECOMMENDATION: HHQ direct mitigations and restoration actions as documented in TAB A and as modified by future revisions to TAB A made by the Oceana Hangars and Barracks Working Group.

COORDINATION: TAB B

Attachments:
As stated

Prepared By: CDR Dan Stock, CSG-12, (757) 341-7214

Future Base Design – Objectives

- **Directs resources at primary warfighting missions focused on enabling, generating, and increasing naval power**
- **Reduces infrastructure total ownership costs and footprint**
- **Provides non-traditional solutions to improve shore support affordability and quality of service**
- **Establishes installation energy resiliency capability**
- **Creates incentives at installation level via a revised Sustainment funding model**
- **Adheres to established compatible development criteria (e.g. AICUZ)**

Future Base Design – A Solution

- **FBD goal: direct the maximum portion of O&M funding to the installation's core warfighting infrastructure**
 - **Non-core services delivered via alternatives such as public/public, public/private (P4) opportunities, and consolidation of services**
 - **Provides opportunity to find creative solutions that result in innovative, long-term infrastructure solutions while reducing and/or avoiding costs**
- **FBD discrete actions:**
 - **Determination of “core” from “non-core” services provided by NAS Oceana**
 - **Develop underutilized installation property in exchange for in-kind services (IKC) that directly benefit NAS Oceana**
 - **Reconfiguration of installation interior fence line**
 - **FBD implementation via a strategic agreement with City of Virginia Beach**
 - **A prospective strategic partnership with Dominion Energy to support Coastal Virginia Offshore Wind**

Future Base Design – Measurable Performance Metrics at Full FBD Maturity

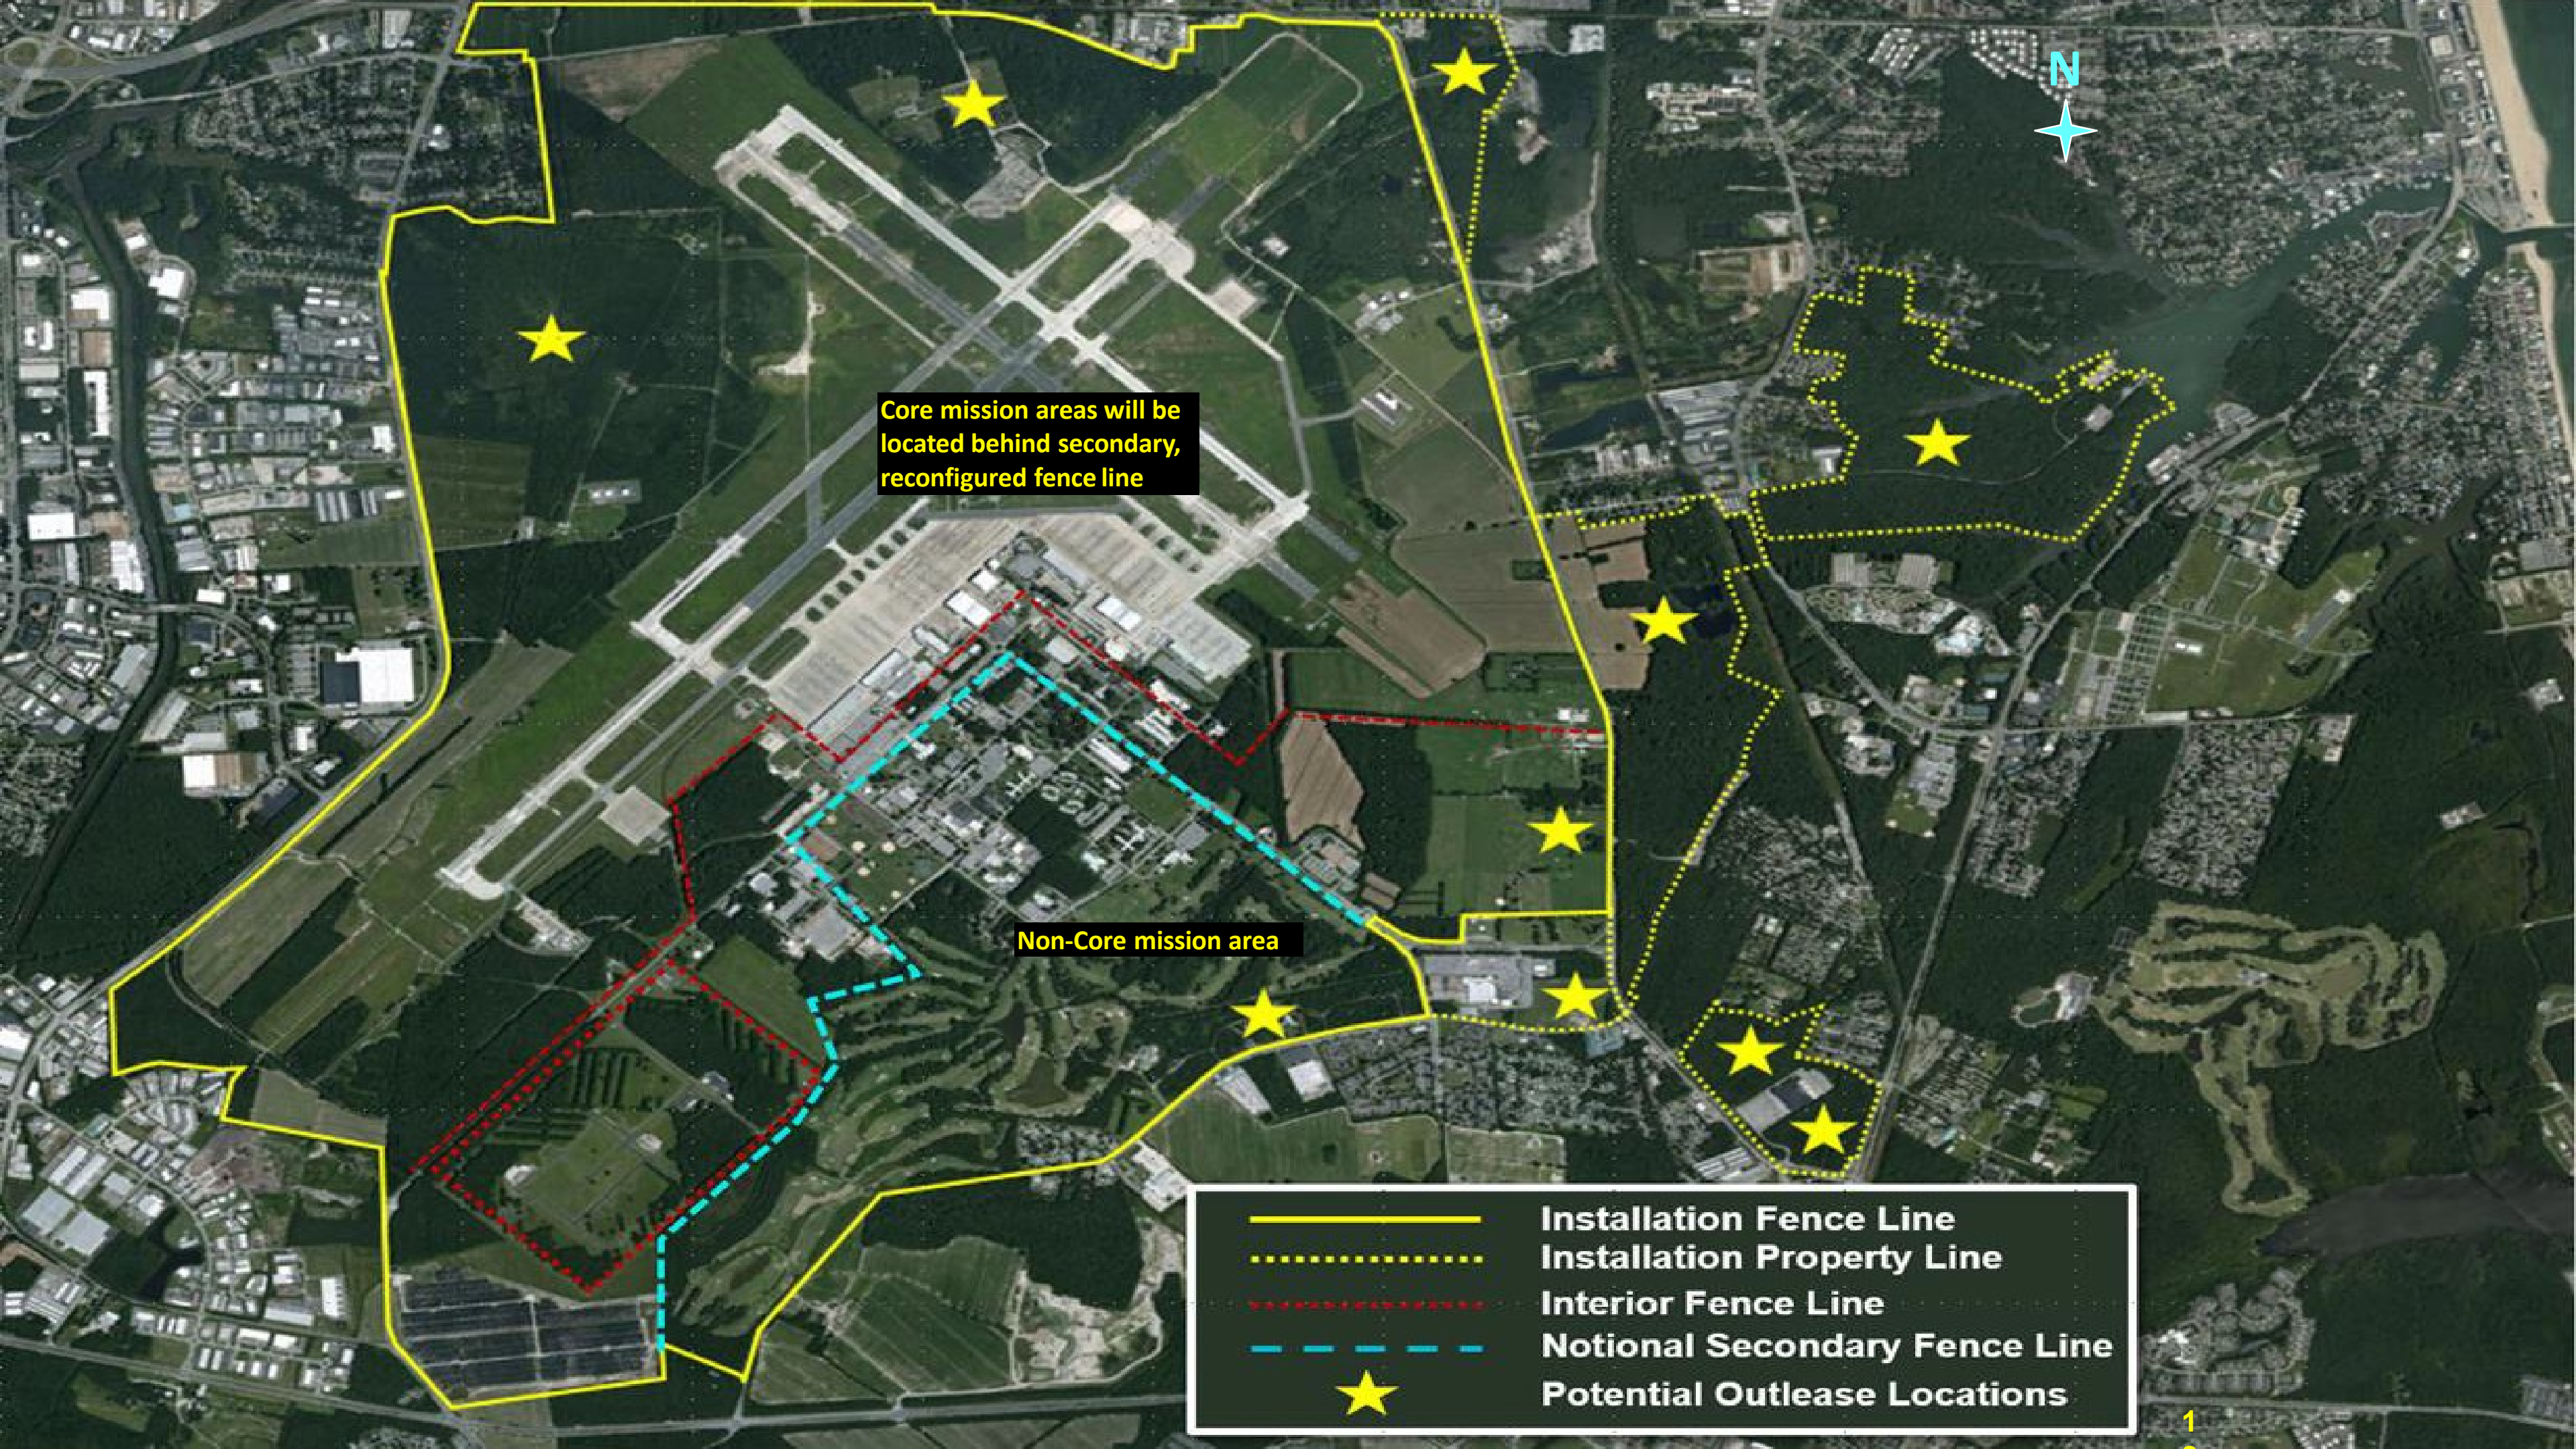

- IKCs will augment NAS Oceana's yearly sustainment budget by an equivalent value of at least \$5M
- Improved material condition of core infrastructure
 - Hangars fully configured for aircraft and personnel they support (aircraft maintenance, mission planning, etc.)
 - Investments & improvements in underserviced core infrastructure (i.e. ATC Tower, fire station, Security Department building, Aircraft Fuels building)
 - Facility *Condition Index* is increased and maintained
- Measurable reductions in Public Works service calls for core facilities
- NAS Oceana has true energy resiliency
- Decrease in infrastructure-related incidents negatively impacting squadron readiness (historically: inoperable HVAC, hangar doors, and aircraft LP air)
- Improvements in core infrastructure physical appearance
- Measurable increases in quality of life
 - Improved retention
 - Esprit-de-corps
 - Overall satisfaction of squadron personnel

Discussion

- FBD is executed utilizing existing Title 10 USC authorizations
- Implemented in a coordinated partnership with City of Virginia Beach Department of Economic Development, highlighted by a signed declaration
- *SIA SOLUTIONS* under 3 year contract providing “FBD integrator” service
- Post-implementation, FBD intends to operate as a near zero-cost effort
- All FBD real estate actions are undertaken through existing NAVFAC processes
- Strategic communication and engagement with myriad stakeholders
- Management and mitigation of risk perceptions resulting from change

Core mission areas will be located behind secondary, reconfigured fence line

Non-Core mission area

	Installation Fence Line
	Installation Property Line
	Interior Fence Line
	Notional Secondary Fence Line
	Potential Outlease Locations

Ongoing FBD Actions

- City of Virginia Beach Department of Economic Development is researching P3 opportunities for all developable acreage (~350 acres)
- NAS Oceana is partnering with Dominion Energy to support their CVOW project and other energy-related initiatives
- Strategic partnership with City of Virginia Beach
 - On March 16, 2021 Virginia Beach City Council approved “a **Resolution to AUTHORIZE and DIRECT the City Manager to EXECUTE a non-binding agreement with the United States Navy re NAS Oceana future base design**”
 - Agreement between DoN Secretariat & City of VB memorializing FBD relationship
 - Identification and execution of shared service agreements for further cost savings

CITY OF VIRGINIA BEACH
AGENDA ITEM

ITEM: A Resolution Authorizing and Directing the City Manager to Execute a Non-Binding Agreement with the United States Navy For Future Base Design at NAS Oceana

MEETING DATE: March 16, 2021

■ **Background:** The United States Navy (the "Navy") has been exploring the possibility of renovating, redeveloping or otherwise re-utilizing certain parcels currently on NAS Oceana's East Coast Master Jet Base in Virginia Beach ("Oceana") as a part of the Navy's Future Base Design program ("FBD"). FBD contemplates long-term leases of portions of Oceana for compatible development.

City staff and representatives of the Navy have discussed an arrangement whereby the City of Virginia Beach (the "City") would partner with the Navy to facilitate compatible reuses of Oceana's property as contemplated by the FBD. The City would partner with the Navy to develop a master plan the FBD areas, in addition to potentially participating in leases of portions of Oceana in return for in-kind services to be provided to, or in connection with, the Navy at Oceana.

In an effort to define and direct their continuing discussions, City staff and representatives of the Navy have drafted a non-binding memorandum of agreement (the "MOA") regarding the City's role in the FBD. The MOA is intended to lead to the development of binding documents between the City and the Navy. No documents would be executed by the City unless and until they are approved by a subsequent action of City Council.

■ **Considerations:** Retention of NAS Oceana as the East Coast Master Jet Base has been a long term and continuing goal of the City, and the subsequent transactions contemplated by the MOA would be in furtherance of that goal.

■ **Public Information:** Public notice will be provided via the normal City Council agenda process.

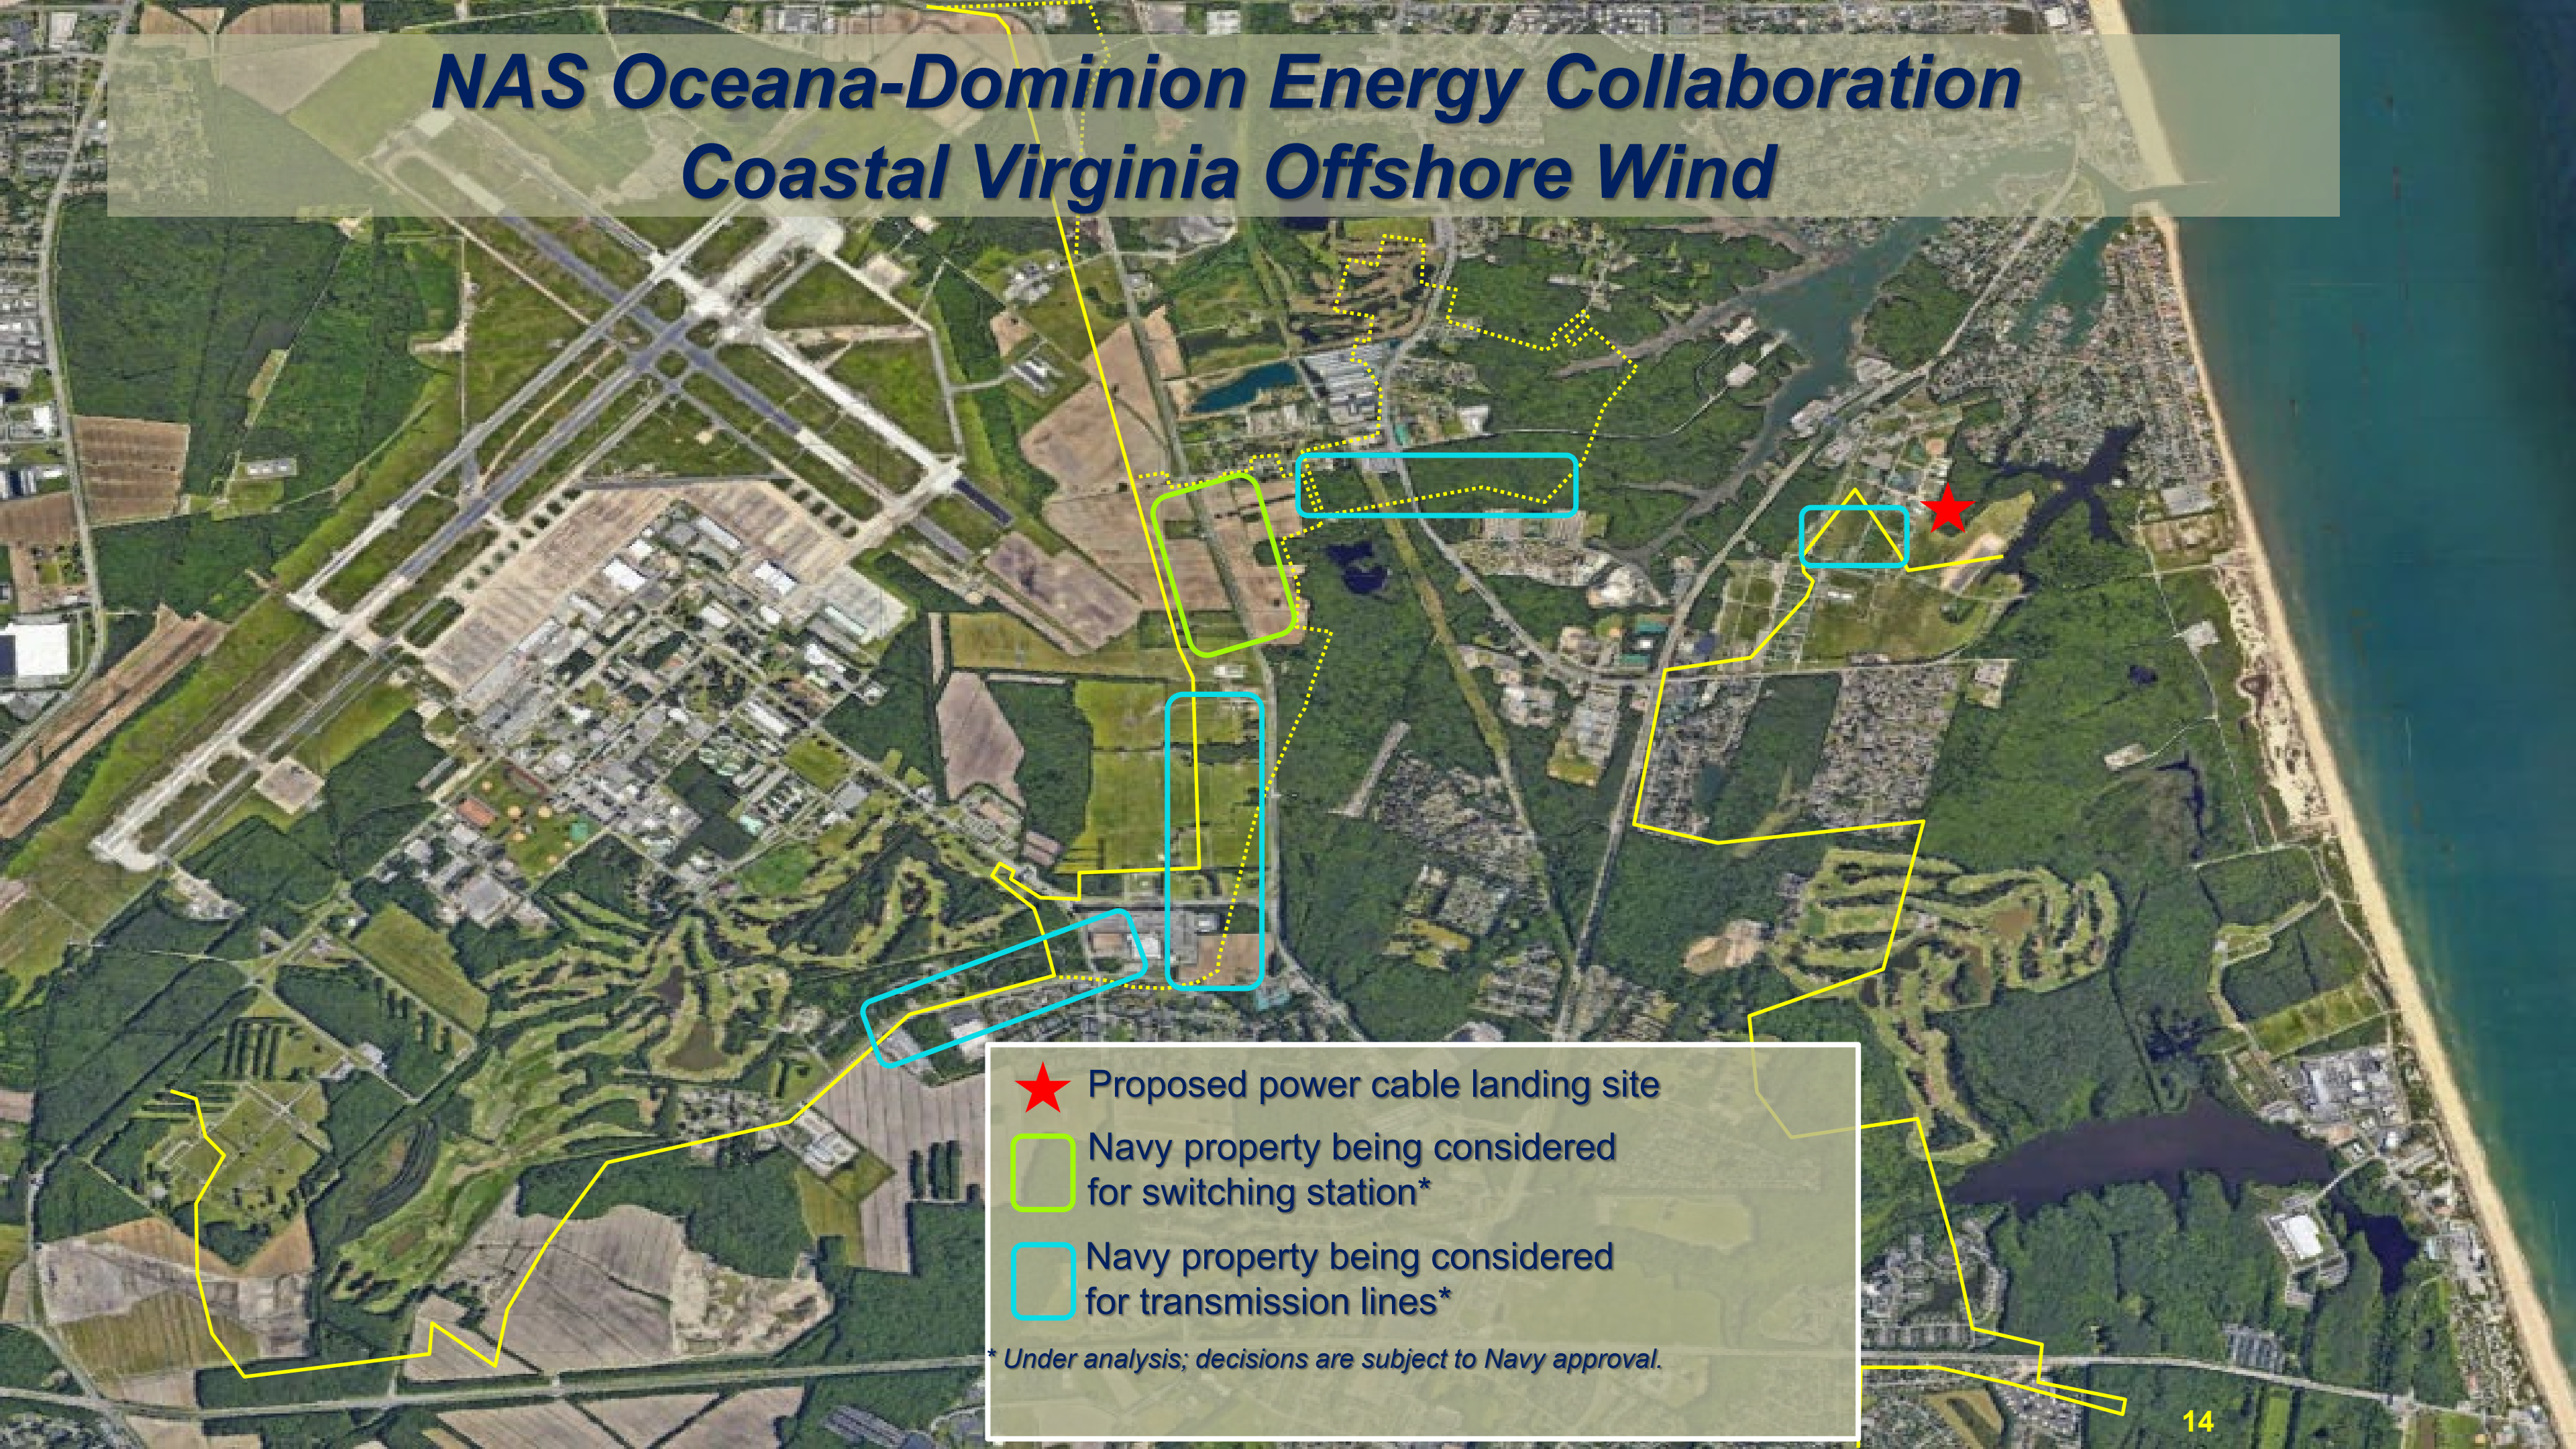

■ **Attachments:** Resolution and Proposed MOA

Recommended Action: Approval

Submitting Department/Agency: City Manager 

for City Manager: *NLB*

NAS Oceana-Dominion Energy Collaboration Coastal Virginia Offshore Wind

- ★ Proposed power cable landing site
- Navy property being considered for switching station*
- Navy property being considered for transmission lines*

** Under analysis; decisions are subject to Navy approval.*

Way Ahead

- **Commander, Navy Region Mid-Atlantic creating a *FBD Program Manager* position**
- **DoN Secretariat & City of VB signing strategic agreement**
- **Start deliberate planning with City of Virginia Beach Planners and Department of Economic Development**
- **Continue CVOW planning with Dominion Energy**
- **Receive approval to revise NAS Oceana Sustainment funding model to incentivize efficiencies achieved from FBD**

What is Project SEARCH?

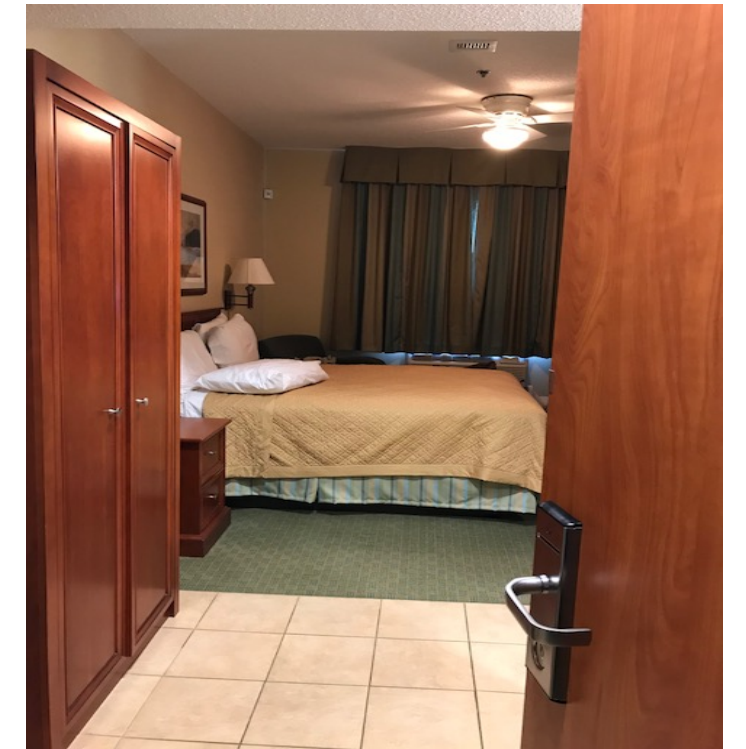

- Employment training program for students with disabilities
- Goal – Competitive integrated community employment
- Located in a real work environment
 - 3 individualized internships (typically unpaid)
 - Teaches work and social skills
- Collaboration between:
 - Host Site
 - State vocational rehabilitation agency (DARS)
 - Local education agency (LEA)
 - Community rehabilitation program (CRP)
- Staff support interns throughout the program year and employment in community

Sample Internship Skills

- Stocking
- Checking inventory
- Customer service
- Cleaning
- Outdoor maintenance
- Retail
- Office Support

Internship Sites

- Exchange Department Store
- Exchange Food Court
- General Smalls Inn
- Commissary
- Anderson Field House
- McDonald Army Health Center

Recent Employment Outcomes

- 2018 – 2019 (17 projects):
 - Enrolled: 138
 - Completed: 130
 - Employed: 112 (94%)
 - Ft. Eustis: 100% employed
- 2017 – 2018 (17 projects):
 - Enrolled: 146
 - Completed: 136
 - Employed: 117 (86%)
 - Ft. Eustis: 100% employed

Growing the Military & Federal Update

Charlie Perham

Vice President, MATRIX Design Group

John Simmons

Managing Partner, Roosevelt Group

THE
Roosevelt
GROUP

VMAC Legislative Update
March 25, 2021

HONORED TO SERVE GREAT COMMUNITIES & COMPANIES

Additions to TRG Client Service Team

Lieutenant General Steph Twitty, U.S. Army (Ret.)

- Former Deputy Commander of United States European Command
- Over 36 years of military service as infantry officer in the U.S. Army
- Served five combat tours to Iraq, Afghanistan, and Kuwait; served in the Pentagon on the Joint Staff and Army Staff, NORTHCOM, International Security Assistance Force-Afghanistan, and Supreme Headquarters Allied Powers Europe

Vice Admiral Mary Jackson, U.S. Navy (Ret.)

- Former Commanding Officer, Naval Installations Command (CNIC)
- Responsible for the operation and management of all Navy installations
- BRAC, MILCON, base operating support, defense community experience

Lieutenant General Scott "Catfish" Rice, U.S. Air Force (Ret.)

- Director of the Air National Guard
- Former Adjutant General of the Massachusetts National Guard
- Command pilot with more than 4,300 hours in the F-111 and A-10
- Former Commander, Air Force Forces, Exercise Eastern Falcon in U.S. Central Command

Biden Administration

Joe Biden has picked 70 nominees to fill key roles in his administration so far

We are tracking **790** government positions among about 1,250 that require Senate confirmation.

466

positions have no Biden nominee.

8

picks are awaiting formal nomination.

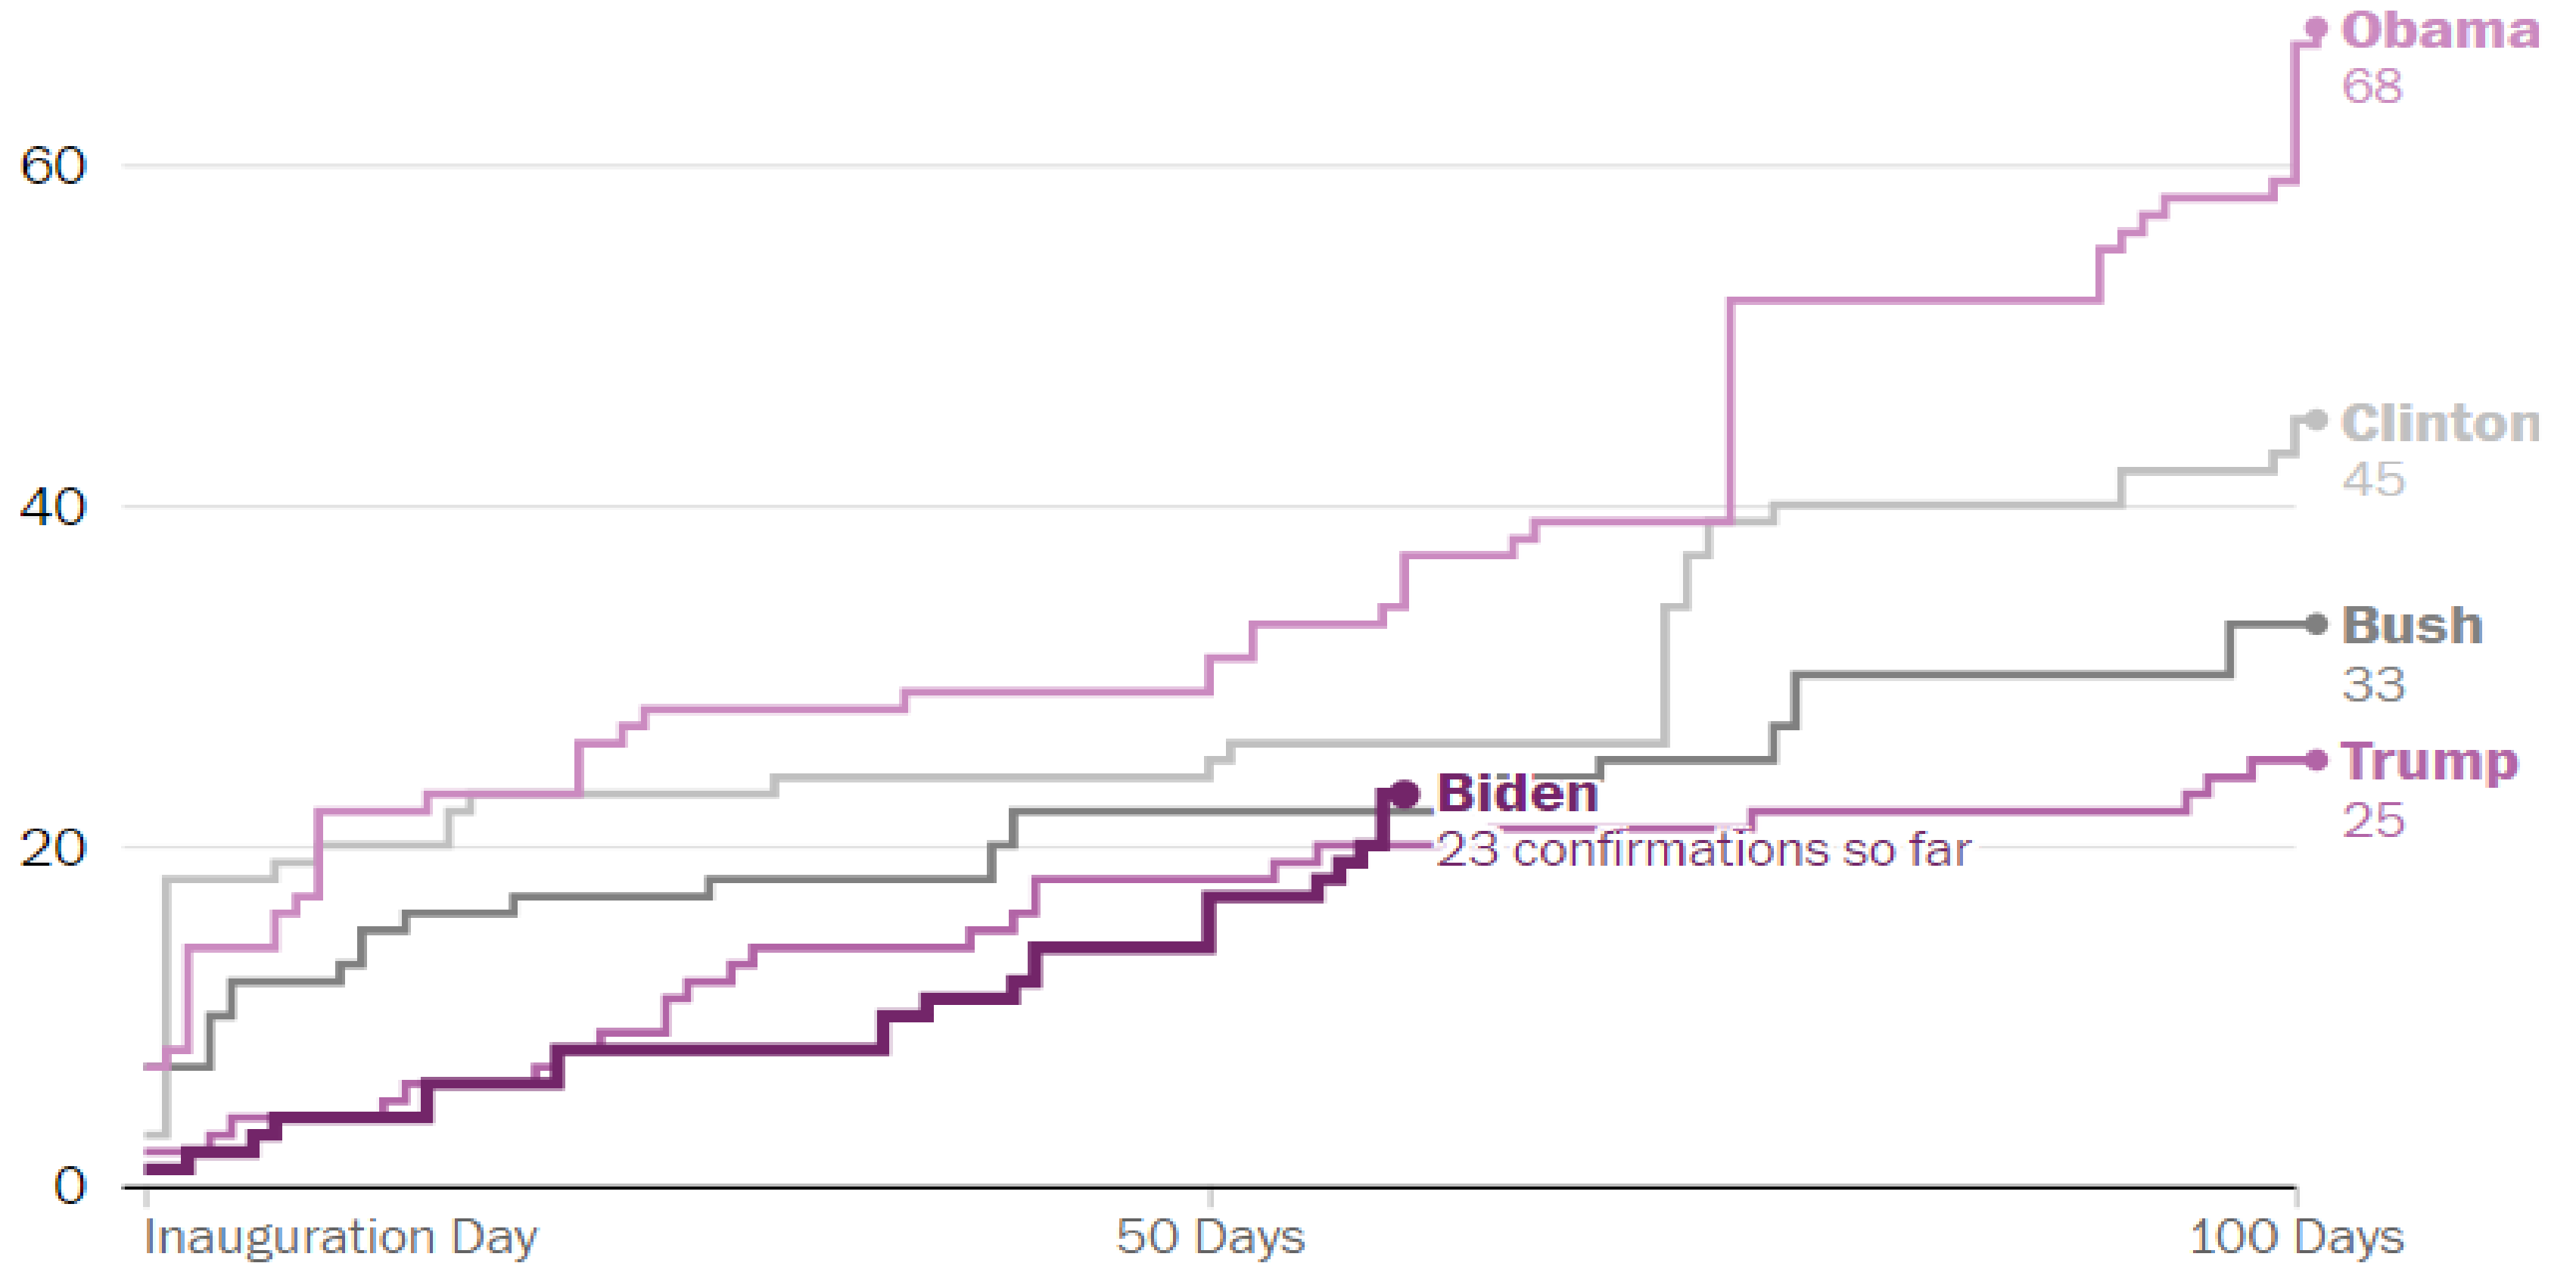

39

nominees are being considered by the Senate.

23

have been confirmed by the Senate.

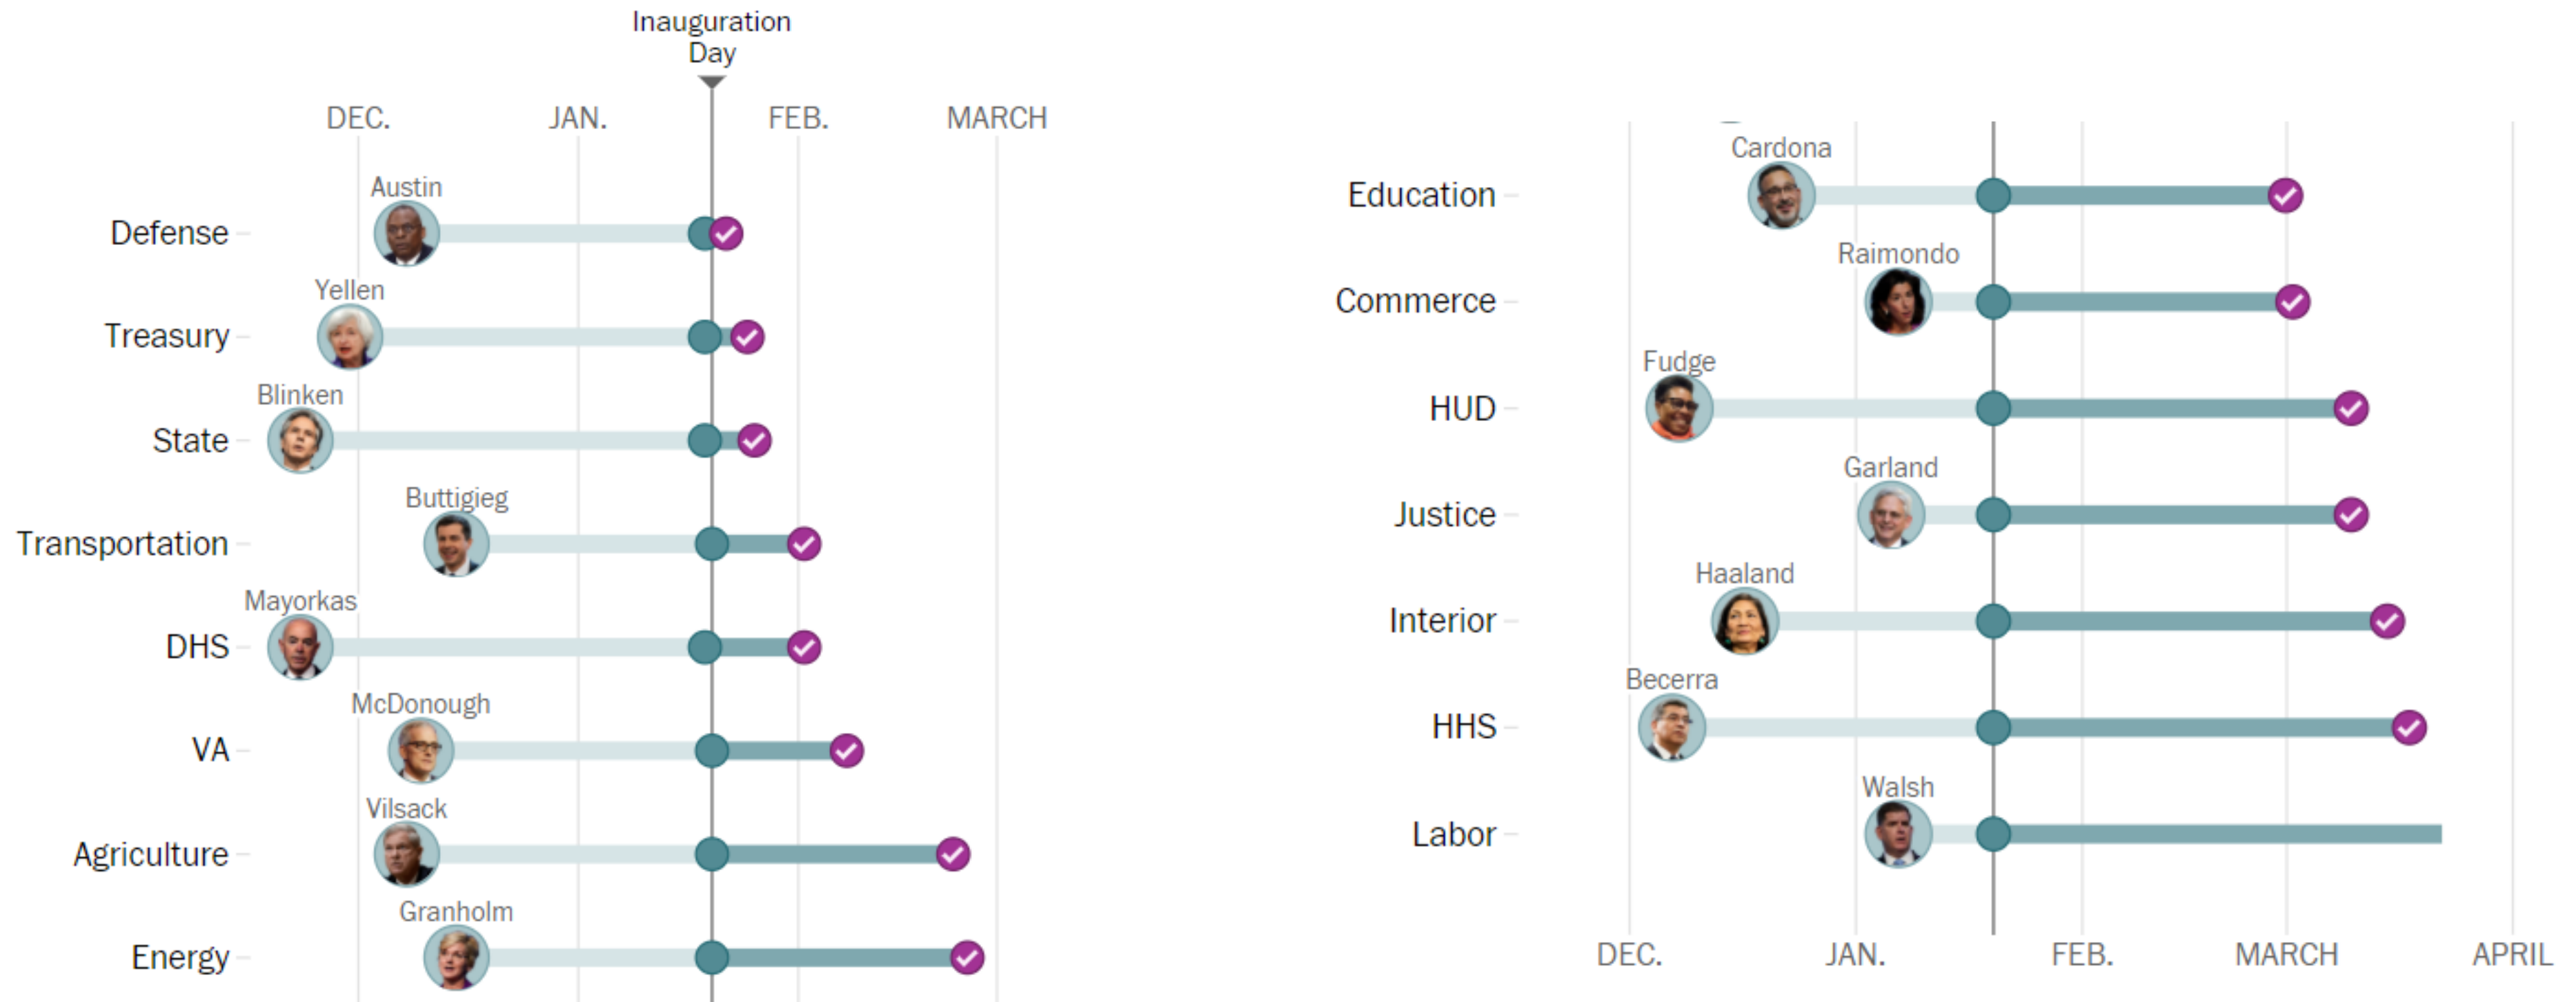

Biden Administration

Biden Administration

Biden Cabinet secretaries' confirmations so far

● Nominee announced ● Sent to Senate ✓ Confirmed

American Rescue Plan Act (ARPA)

- President Biden signed the \$1.9 trillion relief bill into law on March 11.
- \$350 billion in aid for state, local and tribal governments.
- Virginia (state, county and cities) will receive \$6.88 billion

Aid Distribution Amounts and Formulas

Level of Government	Amount	Distribution Formula
State Governments	\$195.3 billion	Share of National Unemployment with CARES Act Minimum Payment
Local Governments	\$130.2 billion	Population (Counties) and CDBG Criteria (Cities)
Territories	\$4.5 billion	Base Allocation plus Population
Tribal Governments	\$20.0 billion	Treasury Determination

FY22 DoD Budget Update

- **Expect PBR To Congress May 3, 2021**...may “flat-line” Defense at ~\$705B for FY22
- **DepSec Hicks Conducting Six Program-Review “DMAGs”** (limited to FY22):
 - Navy Shipbuilding
 - Nuclear Triad Recapitalization
 - Long-Range-Strike
 - Tactical Aircraft, (F-35; KC-46; MQ-9)
 - Climate Change
 - “Build Back Better”
- **All Six DMAG Reviews Will Also Ask Three Questions:**
 1. What low-value, legacy fleets can be divested, free up savings for modernization?
 2. What can be done to increase Pacific-deterrence against China?
 3. What can be done to accelerate Unmanned/Autonomous platforms?
- **Air Force May Propose Additional Aircraft Retirements:**
 - A-10, KC-10, KC-135, that were not approved by Congress in 2021
 - **F-22 (early models used for training?)**
- **Services POMs For FY23 Due To OSD June 2021 = very tight turnaround!**

Air Force Leadership Comments at AFA

Chief of Staff of the U.S. Air Force - General C.Q. Brown

- Proceed with Next Generation Air Dominance/NGAD program for the China fight.
- But ~\$6B/year F-35 procurement, will not be a “billpayer” for NGAD development.

PACAF Commander Air Force - General Kenneth Wilsbach

- USAF must accelerate NGAD.

USAFE/Africa Commander - General Jeff Harrigian

- USAF must accelerate NGAD.

ACC Commander - General Mark Kelly

- USAF must accelerate NGAD, or China will field its own NGAD aircraft first.

Virginia Congressional Leadership

Sen. Mark Warner - Chair, Senate Intelligence Committee.

Sen. Tim Kaine - Chair, Senate Armed Services Subcommittee on Readiness and Management Support;

Rep. Bobby Scott - Chair, of House Committee on Education and Labor.

Rep. Elaine Luria - Vice Chair, House Armed Services Committee; Member of House Homeland Security Committee.

Rep. Don McEachin - Member of the House Committee on Energy and Commerce; Select Committee on the Climate Crisis; House Committee on Natural Resources.

Rep. Rob Wittman - Vice Ranking Member, House Armed Services Committee; Ranking Member, Seapower and Projection Forces Subcommittee.

Rep. Don Beyer - Chair, House Science Subcommittee on Space and Aeronautics.

Rep. Jennifer Wexton - Member of House Appropriations Committee.

Rep. Ben Cline - Member of House Appropriations Committee

Congressional Earmarks Update

- **Earmarks = Community-Based Projects**

- Over the next few weeks they will determine what accounts the money will come from and clearer guidelines for what organizations and entities are eligible.

- **Earmarks Will:**

- Be capped at 1% of spending or \$15 billion, whichever is lower and will be split among the House/Senate
- Constitute more or less than 1% of each bill—each subcommittee will decide and must comply with the full committee cap
- Adhere to 2010's same transparency standards (members must post their requests online and verify that they have no personal financial stake, etc.)

- GAO Will Evaluate A Certain Percentage Of The FY22 Earmarks.
- The House Will Further Limit Members To 10 Earmarks Across All 12 Bills.
- The Senate Will Not Have A Cap.
- Prohibition For For-profit Entities Has Been Locked In For The House.

Legislative Priorities for 117th Congress

Shipyard Infrastructure Optimization Plan

U.S. Navy is overhauling the plan to invest \$21 billion over the next 20 years.

F-22 Formal Training Unit Beddown at Joint Base Langley-Eustis

Air Force is trying to find \$1 Billion to accelerate the purchase of the Next Generation Air Dominance (NGAD) fighter.

Defense Community Infrastructure Program (DCIP)

The House and Senate Armed Services Committees have authorized \$100 million but the House and Senate Appropriations Committees have only provided \$80 million.

Virginia National Guard Army Aviation Support Facility

#1 priority for VANG. The General Assembly has appropriated \$4.5 million to support project.

Rivanna Station SCIF Addition

Reprogramming of \$17 million to cover additional costs was held up at ODNI.

Outlook for 117th Congress

- **House of Representatives**

- Slim majority made even tighter by Biden Administration nominations
- Republicans dealing with fallout from Impeachment, Capitol Insurrection, President Trump

- **Senate**

- 50/50 Democratic majority with Vice President Harris
- Senator Joe Manchin aka “The Real Majority Leader”
- Future of the Filibuster

- **Fiscal Year 2022 Budget**

- Sequestration budget caps are gone.
- Role of congressional earmarks?
- Three month delay is compounded by congressional Covid-19 operating procedures.

- **Defense Budget**

- Impact of DMAG review and flat line request of \$705B?
- Whispers of potential BRAC request. Strategic basing recommendations influenced by quality of education; cost savings; climate change and alignment to the National Defense Strategy.

Outlook for 117th Congress

- **“Big and Bold” Infrastructure Bill**

- “This is about broadband. It’s about water systems. It’s about mass transit, it’s about good paying jobs all over the country,” Speaker Pelosi.
- Little interest in increasing 18.3-cent-per-gallon federal gas tax - has not increased since 1993.

- **Billions for Broadband**

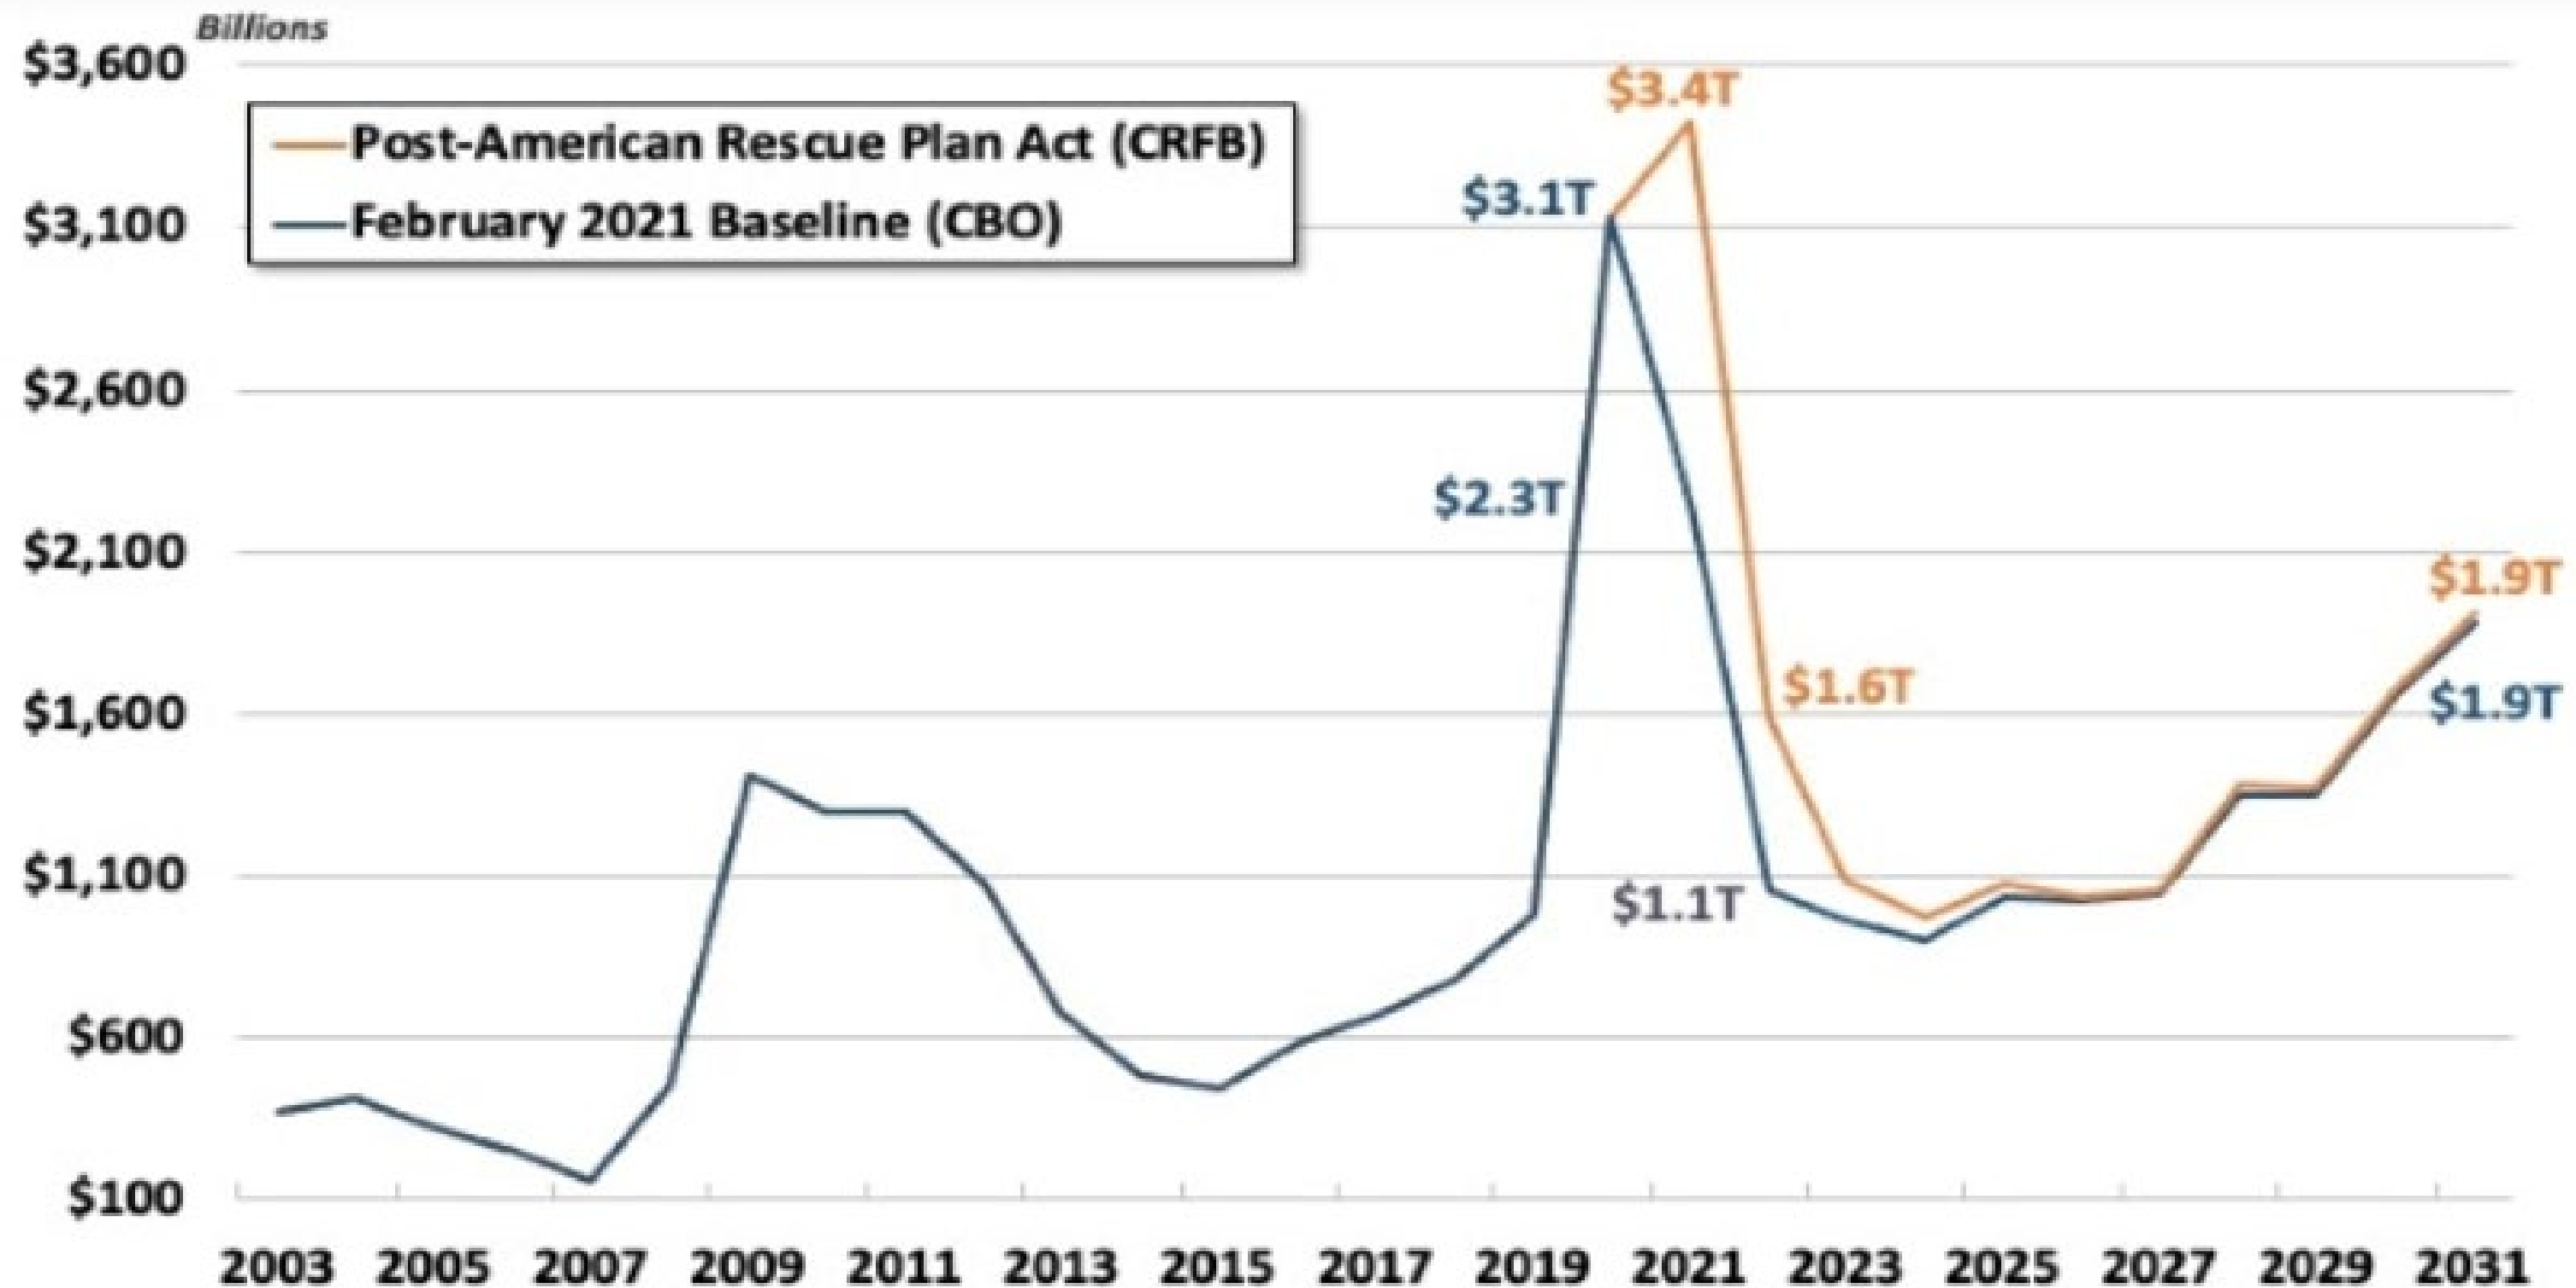

- House Majority Whip James Clyburn (D-S.C.) and Sen. Amy Klobuchar (D-Minn.) introduced The Accessible, Affordable Internet for All Act. It would invest \$94 billion in expanding broadband infrastructure and connecting Americans.

- **Tax Increase**

- Could include: raising the corporate tax from 21% to 28%; increasing the income tax rate on people making over \$400,000; expanding the estate tax; paring back tax preferences on pass-through businesses such as limited-liability companies; and setting up a higher capital-gains tax rate for individuals making at least \$1 million. It would raise around \$2.1 trillion over 10 years.

Outlook for 117th Congress

This Year's Deficit Will Eclipse Last Year's

COMMANDERS' UPDATES

Virginia Military Affairs Council Meeting (VMAC)

Marine Corps Installations National Capital Region – Marine
Corps Base Quantico (MCINCR-MCBQ)

25 March 2021

COVID-19

- MCINCR-MCBQ continues to execute all of its mission essential functions.
- Requiring social distancing and the use of masks.
- Complying with DoD restrictions regarding movement requirements for those coming from high risk areas
- Maximizing the use of telework (especially high risk employees)
- Maintaining a quarantine barracks⁵⁰ for confirmed positive cases (or those with likely exposure)
- Commenced vaccinations for first responders and medical personnel

MCINCR-MCBQ Partnership Updates

NVRC IGSA – Road Maintenance Supplies

- Sand: Completed initial order for 600 tons of sand. Cost savings of ~\$8k
- Stone: NVRC added to VDOT Contract effective 11 April. Cost savings of ~\$118k

PWC IGSA – Road Repair and Maintenance Services

- Russell Road – 5 months quicker with a cost avoidance of ~\$276k

Road Improvements

- Route 1: VDOT, PWC DoT and Stafford DoT conducted a Strategically Targeted Affordable Roadway Solutions (STARS) Study with the goal is resolve concerns with the Route 1 North and South ramps onto Russell Road and the impact of Route 1 widening on the Russell Road Bridge. Study results are expected to be published summer of 2021
- Fuller Road: Working closely with PWC Department of Transportation⁵¹ to improve Fuller Road

Town of Quantico – Resident Concerns

- Water Rates: Partnership with NVRC allowed us to explore multiple options and facilitated an effective way forward
- Transportation: Partnership with Supervisor Bailey, Potomac and Rappahannock Transportation Commission (PRTC) and OmniRide working to resolve resident's access to public transportation

USO

- USO West Side celebrated one year on base
- Working to establish a location on Main Side, which will include E-Gaming ability
- Both locations offer programs and services for our military and family members
- Provides an excellent opportunity for the community to volunteer

Joint Base Langley-Eustis

COVID-19 Update/Response

- 633 MDG is supporting the following FEMA Missions:
 - HHQ JTF Command Staff, Shaw AFB, SC: 2 personnel; working with FEMA to provide resources for missions (Apr 2020 – Jul 2021)
 - North Dakota: 10 personnel; provided care to COVID-19 patients in three civilian hospitals (Nov 2020 – Jan 2021)
 - Houston, TX: 10 personnel; providing 6K vaccines per day at civilian vaccination site (Feb 2021 – TBD)
 - Greensboro, NC: 79 personnel; providing 3K vaccines per day at civilian vaccination site (5 Mar 2021 – TBD)

Partnership:

- Support to Naval Air Station for Runway Closure (Mar – May 21)
 - Aircraft utilizing runway: C-17 and E2B
 - Air terminal operations and fuel management

Joint Base Langley-Eustis (Langley)

Partnership:

- Gate Relocation Efforts in partnership w/City of Hampton (CoH):
 - Current Armistead Gate Entry Control Facility and Large Vehicle Inspection Station flight/ground safety hazard
 - Re-location is critical to sustaining future development
 - CoH contracted joint study to develop new route/access
 - Funded by Office of Local Defense Community Cooperation (OLDCC) & led by City of Hampton & 633 CES (\$170K)
 - Collaborative effort with on/off base mission partners to identify multiple gate relocation Courses of Action for study/analysis
 - Final Report was delivered in Dec 20 w/preferred location
 - CoH has begun conducting the stormwater and environment due diligence for the preferred gate site relocation

Joint Base Langley-Eustis (Eustis)

Partnership:

- Main Electrical Substation in partnership w/Dominion Energy (DE)
 - Under the Utility Privatization Program DE has begun a \$12.5M project to upgrade the main electrical substation at JBLE-Eustis.
- Multi-phased project over 2 years
 - Installs an additional transformer
 - Replaces 2 existing transformers
- Decreases frequency/duration of power outages during peak periods
- Provides reliable electrical infrastructure and facilitates renewable energy resources.
- Concurrently, DE is working a \$12M upgrade to the 115kV Transmission line feeding the installation

U.S. ARMY

Joint Base Myer-Henderson Hall

March 2021

COL Kimberly Peeples
CSM Matthew L. Majeski

Messaging techniques:

- Give media platform to military health officials by way of livestreamed Town Hall meetings and graphics publication. Questions submitted during the event are answered immediately by subject matter experts

Current COVID-19 messages:

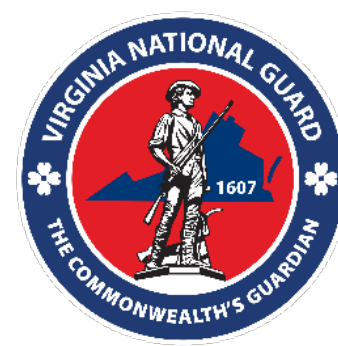

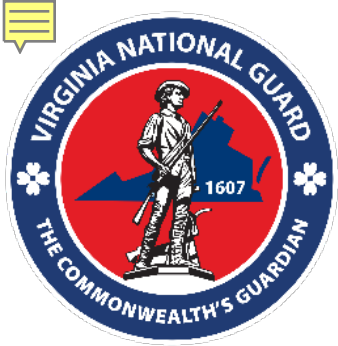

- We have received and continue to provide the Moderna 2 dose COVID-19 vaccine for those 18 and older who live or work on the joint base and Fort McNair and those empaneled to the Andrew Rader U.S. Army Health Clinic.
- Our clinic personnel anticipate transitioning to Phase 1C late March or early April. This category includes patients aged 18-64 categorized as high risk by the CDC and all patient aged 65 and older. Vaccination supply is being overseen at the DoD level. The DoD anticipated receiving 11.1 million doses of the COVID-19 vaccine to vaccinate all military, DoD, and beneficiaries. Initially vaccine has been limited. As supply chains open we stand ready to receive and deliver vaccine.
- Mitigation measures such as Distance, Hygiene and Masks are always encouraged through all information sharing channels.

Northern Virginia Regional Commission (NVRC)

- Regional IGSA with Fort Belvoir and Marine Corps Base Quantico to bulk buy road maintenance supplies

Army Community Services Partners Include:

- Tragedy Assistance Program for Survivors (T.A.P.S.)
- Gold Star Wives: Local Chapters – Potomac, Arlington and DC and Gold Star Mothers: Maryland and Virginia
- The Steven A. Cohen Military Family Clinic at Easterseals
- Red Cross Services to Armed Forces
- Serving Together
- Partnership on Employment & Accessible Technology (PEAT)
- Project PEACE- Partnering to End Abuse in the Community for Everyone
- DCCADV

Fort Pickett

Partnerships

Town of Blackstone:

- MOU / Water Agreement signed 23 FEB 2021
- Report of Availability submitted to NGB / HQDA

Fort Lee:

- Insurrection 6 JAN 2021
- COVID Issues
- Mr. Scott Brown

Upcoming Events

- Banks – Lambert Handheld Detector Lane Dedication– 26 MAR 21
- Training Support Center Ribbon Cutting– 26 MAR 21
- MTC Change of Command – 16 APR 21
- Command Underway Exercise-MAY 2021
 - 160th SOAR, 75th RGR, JSOC

Continued Initiatives

Fort Belvoir

Fort Belvoir

Partnership Initiatives and COVID Response Efforts

- COVID Synch Meeting 3 X a week; Weekly COVID CUB
- Weekly Recovery Review Board
- Partnering with FBCH for vaccination clinic; 24K as of 3 March
- FBCH conducts contact tracing for all Fort Belvoir positives
- FBCH conducts Public Health Assessments as requested
- Provide manpower to assist FBCH and DES
- Weekly FUOPS with MDW
- Protocols strictly enforced; all meetings on MS Teams
- Maximum telework continues
- Continuing to work with Fairfax County on an IGSA for a new Emergency Communications Center with CAD interoperability; briefing to County Executive expected soon
- Uniform IGSA on-hold due to pandemic
- Fairfax County Building Momentum discussion discontinued

Closing Remarks

The Honorable Carlos L. Hopkins
Secretary of Veterans & Defense Affairs
